DEAR SIR :- I write to inform you that the communication read by Senator Nye on the 13th, from Judge (?) Logan, is a base and unmitigated falsehood, made out of whole cloth, to bear on the Ku-klux 8d "

I, with the whole bar, attended Cleave-

land court. On Monday there was a rumer that one Biggerstaff, a pliant tool of Logan's, had been whipped by parties who retaliated upon him for shooting at his own brother, and endeavoring to assassinate him. There was no politics in it, purely a family feud, but Logan summoned 300 men and had them armed, and paraded around his house, and arrested some forty persons on suspicion of complicity, not one of whom, as every one knows, had anything to do with it. At the same time he despatch-ed his man "Friday," one Carpenter, to report to Washington, and he remained at home; and the report was circulated that he was afraid to leave home for Cleveland court. The citizens of Cleveland at once held a public meeting, assuring him of protection, and sent their sheriff to escort him to Shelby. Mark his reply: "He was not at all afraid, but was staying to investigate the whipping," and that he would come when he got through, thus leaving the court and people to lose time and money while he was doing magistrate's duty at home. The solicitor, Colonel Bynum, a Republican, strongly denounced him, and wrote him an urgent letter to come. The very day Senator Nye read Logan's communication in the Senate, saying he, Logan, was afraid to come to Cleveland, Logan came without escort or molestation, and held court as peacefully. if not more peacefully, than ever was held

This Logan is an ignorant, corrupt, vile man, whom no one respects, and for whom the whole bar have a sovereign contempt. Yours, very truly and gratefully, D. SCHENCK.

Southern Ten Culture,

General Capron, commissioner of agriculture, reports that toa culture is fast becoming a feature of importance in the Southern and Southwestern States, and that in a few years enough tea will be grown in those sections to meet the home consumption. Over forty thousand tea plants have been distributed by the department, nearly all of which flourished, and now the seed from plants raised in South Carolina are being sent out.

An account of the largest rope in the world, as described in one of the daily papers of Birmingham, England-the place of its manufacture-will prove interesting to American readers. According to the details given the rope is 11,000 yards long, measures five and one-fourth inches in circumference, and weighs over sixty tons: Made of patent charcoal wire, laid round a hemp centre, the rope consists of six stands, with ten wises in each stand. each wire messures 19,160 yards, so that the entire length of the wire reaches the enormous total of more than four hundred and twelve miles. To this is to be added the length of yarn used for the centre, namely, twenty-seven threads, each thread measuring 15,000 yards, and giving a total length of about two hundred and thirty miles. Adding together the wire and yarn there is a grand total of six hundred and thirty-five miles of material, all going to with the regulations of the Association, and the make up a monster wire and hair rope a competitors required to furnish our Company little under six miles long.

Grant on the War Path.

Gen. Grant is already on the canvass for a re-nomination in 1872. He has lately been on a pilgrimage to the West, in the hope of conciliating public opinion there, and is shortly to visit Massachusetts. In view of this latter fact, the Springfield Republican aptly says:

"President Grant is coming to Massachusetts again, having accepted an invitation to attend the anniversary of the army of the Potomac, in Boston, on the 12th of May. But what a pity it is that his numerous engagements East and West leave him no time to visit the South, the section which, most of all needs and would profit by his presence."

"A Little Learning."

It is a dangerous thing, says the Apostle. Modern theorists seem to differ from him very much as the country justice differed from Blackstone. It is assumed by them that morality and instruction always advance pari passu, and that the man who can read and write is necessarily better morally than he who cannot. This is the assumption of the Northern people with regard to the South, but it is far from being justified by the facts. It is only a few days since, Col. R. T. W. Dake, member Congress from Virginia, proved by official statistics that the average of crime in his district (Albemarle) is much less than in Butler's district in Massachusetts. Yet the per centage of those who can read and write is much greater in Massachusetts

To instruct a people in the rudiments of education, is to give them an appetite which they did not have before. But be good or evil, it is necessary to know upon what food this appetite is to be satiated. To take an untutored savage and to awake in him a desire for clean and cooked food, instead of raw flesh, snakes and lizards, may have a civilizing influence upon him. But to kindle in him a craving for ardent spirits unknown to him before, is to reduce him below his already degraded level. If the masses of the Northern people had not been so generally able to read and to imbibe the pernicious doctrines of aboreject those doctrines; and the government established by our fathers would still remain what it is no more, a fit object for

We publish below a card signed by thirteen respectable gentlemen, residents now of North Carolina, but lately from North-Governor Manly was born in Chatham ern States. This card is extracted from county, graduated at the University at the Raleigh Sentinel, and it is worthy the Chapel Hill, in 1814, and studied law un- careful and candid consideration of all men, of all parties. from time to time, unfolded the villainy and exposed the falsehoods of those who have so often willfully misrepresented affairs in this State, but it has, as yet, availed nothing. Now, when a number of men of Northern birth, who have resided sufficiently long in the State to fully appreciate the condition of things here, testify freely and voluntarily to the good order existing in every part of the State, will they be believed by the people of the Northern States?

The following is the card referred to : RALEIGH, N. C., April 20th, 1871.

John Hinman, Esq., Fall Brook, Penn .: DEAR SIR: Having been informed that there are reports, circulating in Pennsylvania and elsewhere in the North, with respect to the in-security of Northern men in North Oarolina, growing out of Ku-Klux organizations, we desire to state that we are Northern men, and have been residing here for some time, longer or any way, and find the country as safe as any

place where we have lived. There have been outrages committed by bands, who call themselves Ku Klux, in three or four counties of the State. We know nothing about them personally, and believe they do not exist now anywhere. These acts were not against Northern men, but against those of their own State, towards whom they had bad feelings. Any Northern man, who desires to get an honest living, can come here and will be treated kindly by all classes. We feel perfectly safe in political purposes in the North. Any one who will visit this State will see that the community is perfectly orderly and quiet.

West Virginia, An election was held in West Virginia yesterday for the ratification or rejection of a proposed amendment to the State Constitution, which has been under consideration for more than two years past. The proposed amendment removes political disabilities on account of color or participation in the late civil war.

If it should be adopted, and there seems to be little doubt in regard to it, several thousand citizens, disfranchised because they were Confederate soldiers and sympathizers, will be allowed to vote who have not done so since the war. In this event, West Virginia, like Missouri, would become one of the most reliable Democratic States in the Union.

Now if this be the true condition of convene, we hope the good people of that county will, like those of Cleveland, offer to escort Judge Russell to Clinton, and be his body guard during his stay. Judge Russell dwelt considerably upon the terrors of the Sampson county Ku-Klux in his testimony before the Senate "Outrage" as to their certain existence in three and probably in every county of his judicial district except Brunswick and Columbus-but we did not know that he stood in personal dread himself. The Judiciary and Crimes.

We publish elsewhere a letter from gentleman well known throughout North Carolina, addressed to Senator Blaza, in regard to the recent conduct of Judge reported in Washington in regard to the condition of affairs in Cleveland county. The object of this falsifier and dastard was palpable. The Ku-Klux and the Amnesty bills were both pending in Congress, and Governor VANCE's chances of admission to the Senate were very promising. The account given in the letter corresponds fully with that heretofore published in extenso in the Salisbury Old North State.

We venture nothing in saying that judicial crimes have done more to injure North Carolina than the Loyal Leagues and Ku-Klux combined-indeed, the corruption of our Judges has been the fruitful source of lawlessness and crime upon the part of these two secret organizations.

Paper Legal Tender Money Constitutional,

The Supreme Court of the United States has decided that the legal-tender act is constitutional, overruling the decision of last year, which declared that contracts for the payment of money made before the passage of the legal-tender act could not be paid in green backs and must be

The decision of last year was illogicalthat just made is logical. If the Government has authority to make anything else this country about the first of July, and than gold and silver coin a legal-tender in the payment of debts, and it makes paper money issued by itself a legal tender, that paper money becomes, to all intents and purposes, as efficient in the payment of debts as gold and silver coin; and it can make no difference whether the debt was contracted before or after the time when the Government made paper money issued by itself a legal-tender. Gold and silver sels, and after receptions at New York and coin is not a legal-tender until made so by Government authority, and paper currency is not a legal-tender no more than is gold and silver coin unless made so by the Government.

The only question is the authority of the Government in the piemises. If the authority be once conceded, then the decision of the Supreme Court of the United States just made is correct and logical. The authority conceded, the Congress can issue stamped paper-not promises to pay, same as it can make gold pieces, stamped
